

CONFERENCES AND EVENTS

Members receive discounts on all ASE meeting registrations

Scientific Sessions

www.ASEScientificSessions.org

The Annual Scientific Sessions is the premier conference devoted to cardiovascular ultrasound in clinical patient care. It offers a full spectrum of educational events including symposia discussing novice, intermediate, and advanced techniques.

Echo Hawaii

Echo Hawaii presents the latest information on the utility of established and new ultrasound technologies and their clinical applications. Located in a lovely setting, this meeting features low student-to-faculty ratio and a focus on Contrast and its applications in patient care and Echo in Critical Care Medicine.

State-of-the-Art Echocardiography

State-of-the-Art Echocardiography is a top-notch comprehensive course for learning the ins and outs of echo in clinical practice. A multitude of topics are covered along with special workshops, a computer learning lab portion and cased-based learning opportunities.

ASCeXAM/ReASCE Review Course

Ninety-seven percent of attendees who attend, pass the NBE ASCeXAM or ReASCE exam. This intensive review will prepare you to pass your boards and give you access to first class faculty. Use of an Audience Response System allows attendee interaction and simulates the question and answer format of the certification exams.

Echo Florida

Located in Walt Disney World®, faculty discuss the strengths and limitations of established and emerging technologies and illustrate how they can be used to improve and streamline patient care in a cost-conscious manner. Echo Florida provides a comprehensive review of cardiovascular ultrasound and includes an emphasis on interventional echocardiography and point-of-care ultrasound.

The American Society of Echocardiography (ASE) is a professional organization of physicians, allied healthcare professionals, and researchers involved in echocardiography. ASE is committed to excellence in cardiovascular ultrasound and its application to patient care through education, advocacy, research, innovation, and service to our members and the public.

Work shouldn't be so much work. ASE supports you in your career and gives you the opportunity to negotiate your choices. Our online forum, Connect@ASE, provides you with the opportunity to make connections that help with a job change or move – all accessible from your device. ASE members enjoy career resources and educational events that feature upbeat social programs that members love and keep them coming back year after year. ASE recognizes that you want to grow collegial relationships as you build your career. We can help.

Member resources save you time and money. Your membership gives you access to ASEUniversity, home to FREE guideline webinars and other online CME education. In addition, you receive substantial discounts on live educational courses, educational products and board certification tools.

ASE's informative sources provide you with knowledge you need now. This includes a monthly subscription to the *Journal of the American Society of Echocardiography* (JASE), and the *ECHO*, ASE's member news source with features on all aspects of cardiovascular ultrasound. You will also be informed through ASE's weekly news with industry and advocacy updates. Members receive job postings and can easily access professional blogs and resources filled with relevant information.

ASE advocates for you. ASE is the most respected voice for Echocardiography on Capitol Hill, to federal agencies, and to private payers. ASE focusses its efforts on promoting the value and efficacy of echocardiography in addition to pushing for quality measures to protect patient care. ASE works to secure the future of echocardiography. By joining ASE, you can help secure patient access of this essential imaging technology and the value of your profession.

“For early career physicians and fellows in training like myself, ASE membership provides an invaluable opportunity to develop professional networks, cultivate mentoring relationships, and access clinical resources. The world of echocardiography is rapidly changing, and young cardiologists need an advocate like the ASE at their side as they take their first steps as independent echocardiographers.”

Michael W. Cullen, MD
