A Few Things We Can Be Sure Of...

- 1. The ways by which we are paid will continue to evolve
- 2. Growth will no longer be the key to job security
- 3. We won't get paid for poor quality work

What's the Most Effective Way to Bend the Cost Curve?

Healthcare Providers Participating in BPCI Phase 1 or Phase 2

Nationally

Model 1: 15

Model 2: 2,077

Model 3: 4,558

Model 4: 17

Ohio

Model 1: 0

Model 2: 68

Model 3: 258

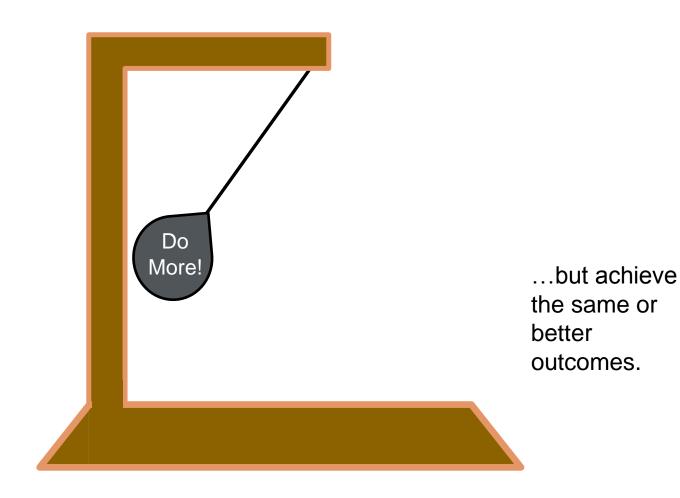

Model 4: 0

The program initially launched with approximately 450 providers in early 2013, but participation dropped to 342 organizations in January 2014. After the second application wave in April 2014, BPCI now has 6,667 participating providers.

Currently, only 243 providers are in phase 2, the risk bearing phase.

Does Imaging Really Matter?

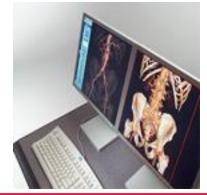

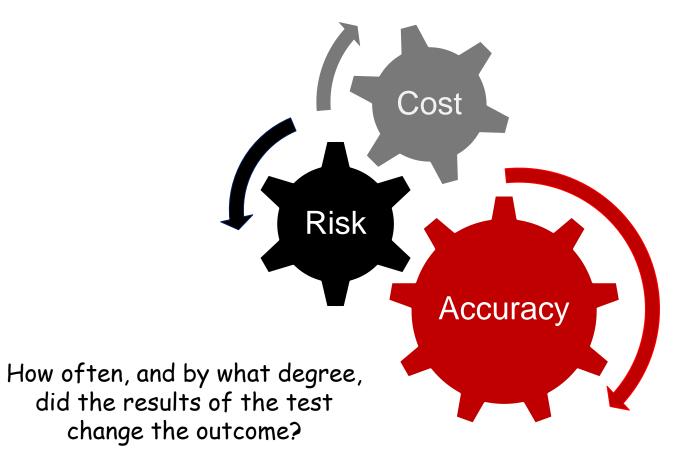

Approach to the Patient

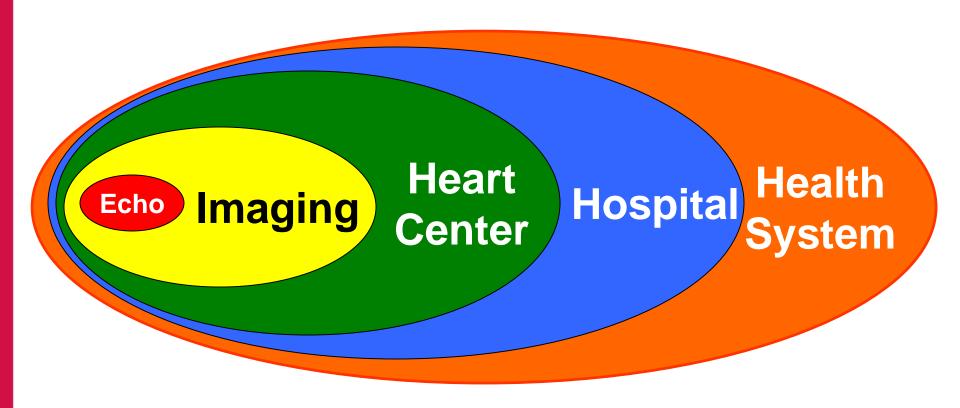

A Very Different Future

- 1. Behaving as part of a large organization
- 2. Doing just enough, and doing it really well

Echo in the Future

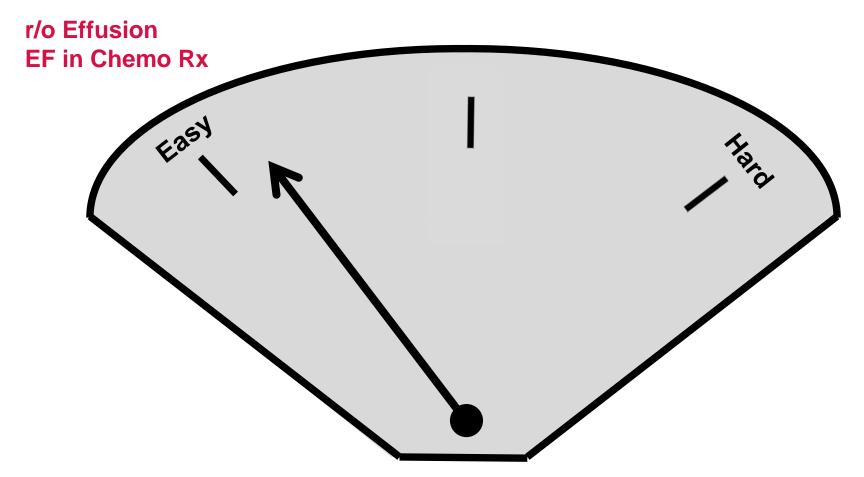

A Very Different Future

- 1. Behaving as part of a large organization
- 2. Doing just enough, and doing it really well

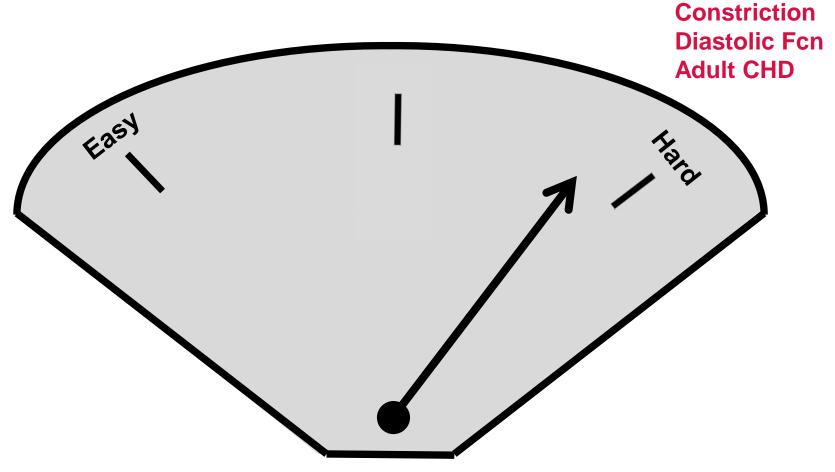

Stratify Service Options

Stratify Service Options

Things We Can Do Now

- Coordinate across modalities Do best test first
- 2. Standardize our protocols Best practice
- 3. Implement AUC Target specific populations
- 4. Stratify our service options
