Echo Hawaii

The American Society of Echocardiography (ASE) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education (CME) for physicians. ASE is committed to ensuring that its educational mission and all sponsored educational programs are not influenced by the special interests of any corporation or individual, and its mandate is to retain only those speakers whose financial interests can be effectively resolved to maintain the goals and educational integrity of its programs. While a monetary or professional affiliation with a corporation does not necessarily influence a presentation, the ACCME’s Essential Areas, Criteria, and Policies require that any relationship that could possibly conflict with the educational value of a program be resolved prior to the educational session and disclosed to the audience. In accordance with these policies, ASE implements mechanisms prior to the planning and implementation of CME activities to identify and resolve conflicts of interest for all individuals in a position to control content.

Echo Hawaii presents the latest information on established and emerging cardiovascular ultrasound technologies. Expert U.S. and international faculty discuss state-of-the-art technologies with a particular focus on how they can be effectively applied in the clinical setting. Case-based approaches are used to discuss new and established uses of echocardiography for diagnosis and guiding management in patients with a broad array of cardiovascular conditions. Topics include: advanced assessment of systolic and diastolic function, 3D/4D imaging, adult congenital heart disease, and contemporary approaches to valve disease, guidance of interventional procedures, contrast echocardiography, ischemic heart disease, and aortic pathology. Special sessions include workshops on perioperative and critical care and 3D echocardiography.

"Beautiful setting, excellent speakers...wouldn't change a thing!"

"I would like to thank ASE for putting together an amazing, educational, and enriching conference."

Main Conference

ASE Member Physician: $775
Nonmember Physician: $895

ASE Member Sonographer/Allied Health*: $650
Nonmember Sonographer/Allied Health*: $750

ASE Member Resident/Fellow in Training: $555
Nonmember Resident/Fellow in Training: $655

Register Early and Save! Rates subject to change. Please visit ASEcho.org/education for up-to-date pricing.

*Registrants in the Allied Health category include sonographers, nurses, and physician assistants.
30th Annual State-of-the-Art Echocardiography: Echo Southwest - February 18-21, 2017
Hilton Tucson El Conquistador Golf & Tennis Resort, Tucson, AZ
Course Director: Steven J. Lester, MD, FASE

State-of-the-Art Echocardiography: Echo Southwest is a premier educational venue for echocardiography in clinical practice. This superbly rated meeting is filled to capacity year after year. The faculty will provide expertise on strain imaging, 3D echocardiography, valve disease, and intervention. A transcatheter aortic valve replacement workshop will be an in-depth exploration of the use of echocardiographic imaging in valve disease. As patients become more familiar with valve disease and intervention and more centers are performing these complicated procedures, it is important for practitioners to become more comfortable with diagnosis, intervention, and monitoring.

Participants should have practical knowledge of echocardiography in order to benefit fully from this program. The setting is ideal for participants to bring their families and add on some vacation time.

“Amazing conference. I loved the environment and felt like I learned a lot more than usual. Thank you!”

“Fantastic course! The learning lab was a truly unique and outstanding experience!”

Preconference
Learning Lab

Echo Florida

5th Annual Echo Florida - October 9-11, 2016
Disney’s Grand Floridian Resort & Spa
Walt Disney World®, FL
Course Director: Rebecca T. Hahn, MD, FASE

6th Annual Echo Florida - October 7-10, 2017
Disney’s Yacht and Beach Club Resort
Walt Disney World®, FL
Course Director: Gerard P. Aurigemma, MD, FASE

7th Annual Echo Florida - October 6-9, 2018
Disney’s Grand Floridian Resort & Spa
Walt Disney World®, FL
Course Director: Gerard P. Aurigemma, MD, FASE

The Echo Florida course is a comprehensive review of cardiovascular ultrasound in clinical practice. The faculty is composed of U.S. and international experts who will discuss the strengths and limitations of established and emerging technologies and illustrate how these technologies can be used to improve and streamline patient care in a cost conscious manner. There is a heavy emphasis on case-based learning. This course is designed for adult and pediatric cardiologists, cardiovascular surgeons, cardiovascular anesthesiologists, cardiac radiologists, fellows in training, cardiovascular sonographers, cardiovascular nurse specialists, internists, intensivists, and emergency physicians with special interest in clinical cardiology and echocardiography.

Topics include: coronary artery disease including stress testing, valvular heart disease, heart failure (systolic and diastolic), and cardiomyopathy, emerging technologies including contrast and 3D/4D echocardiography, complex congenital heart disease, and case-based demonstrations on role of 2D and real time 3D/4D echocardiography to select, guide and follow percutaneous structural heart disease interventions replacement, and percutaneous mitral valve repair.

Preconference

Echo ASE ASEAN

2nd Annual Echo ASE ASEAN - October 21-23, 2016
Conrad Bangkok Hotel
Bangkok, Thailand
Chair: Jonathan Lindner, MD, FASE

The aim of the Echo ASE ASEAN Symposium is to provide cardiovascular practitioners with information on state-of-the-art echocardiography technology. This international meeting is led by expert faculty from the U.S. and the countries comprising the ASEAN region who are leaders in how echocardiography can be effectively applied to improve clinical care. The faculty will focus on the latest cardiovascular ultrasound technologies. Case-based learning approaches will be used to highlight new and established uses of echocardiography for diagnosis and guiding management in patients with a broad array of cardiovascular conditions. Topics include: advanced assessment of systolic and diastolic function, 3D/4D imaging, contemporary approaches to valve disease, guidance of interventional procedures, contrast echocardiography, ischemic heart disease, pericardial disease, and echo in arrhythmic disorders.

Topics include: Novel approaches for assessing ventricular systolic and diastolic function, state of the art evaluation of valve disease, clinical application of 3-D echo, strain, echo and other new technologies, integration of echo information in the management of complex cardiovascular disease.

Main Conference

ASE/TSE Member Physician: $350
Nonmember Physician: $400
ASE/TSE Member Allied Health*: $275
Nonmember Allied Health*: $300
ASE/TSE Member Fellow in Training: $275
Nonmember Fellow in Training: $300

Register Early and Save! Rates subject to change.
Please visit ASEcho.org/education for up-to-date pricing.

*Registrants in the Allied Health category include sonographers, nurses, and physician assistants.
ASE's Scientific Sessions are the premier international conference devoted specifically to cardiovascular ultrasound in clinical patient care. It is a vital event for practicing echocardiographers and offers a full spectrum of educational events including symposia discussing novice, intermediate, and advanced techniques. Research featuring leading cardiovascular ultrasound experts will also be highlighted. The program is an opportunity for all interested healthcare practitioners to explore contemporary issues and emerging developments in the field of cardiovascular ultrasound.

All levels of practitioners will find sessions that meet their needs, help improve their practice and benefit their professional growth. Participants are encouraged to actively participate in sessions and interact with available faculty. This is the meeting that everyone attends; you won’t want to miss the ample opportunities to socialize with your peers and luminaries in the cardiovascular ultrasound field.

Registration
- ASE Member Physician: $795
- Nonmember Physician: $1,095
- ASE Member Sonographer/Allied Health*: $550
- Nonmember Sonographer/Allied Health*: $750
- ASE Member Resident/Fellow in Training: $395
- Nonmember Resident/Fellow in Training: $495

Register Early and Save! Rates subject to change. Please visit ASEScientificSessions.org for up-to-date pricing.

*Registrants in the Allied Health category include sonographers, nurses, and physician assistants.

“I thoroughly enjoyed this conference and learned so much.”

“All of the speakers in the sessions I attended were engaging, with excellent presentations.”
ASE Online Learning and Education Products

The American Society of Echocardiography’s education portfolio consists of online products, DVD products, workbooks, and reference materials. Online products can be found on ASEUniversity.org and physical products on ASEMarketPlace.com. Don’t forget to use your ASE member account to take advantage of member pricing.

ASE is accredited by the Accreditation Council for Continuing Medical Education (ACCMCE) to provide continuing medical education (CME) for physicians. Participants may earn American Board of Internal Medicine (ABIM) MOC points equivalent to the amount of CME credits claimed for approved activities.

ARDMS, CCI, and Sonography Canada recognize ASE’s certificates and have agreed to honor the credit hours toward their registry requirements for sonographers.

All or a portion of these activities may be eligible for Section 1 credits in the Royal College of Physicians and Surgeons of Canada’s Maintenance of Certification (MOC) Program. Participants must log into MAINPORT to claim this activity.

All products with CME credits or MOC points are noted.

ASEUniversity

ASEUniversity is a medical education website featuring online, self-study learning opportunities for physicians, sonographers, and fellows. ASEUniversity maintains a selection of CME activities included for free with an active ASE membership. Available CME activities include a selection of one-hour recorded Webcasts as well as articles selected from the Journal of the American Society of Echocardiography (JASE). ASEUniversity posts at least four new webcasts and up to 12 new articles each calendar year, highlighting relevant topics, practice issues, and new guidelines and standards for cardiovascular ultrasound.

These activities are designed for physicians and cardiovascular sonographers with a primary interest and knowledge base in the field of echocardiography; in addition, residents, researchers, clinicians, intensivists, cardiac anesthesiologists, critical care physicians, and other medical professionals with a specific interest in cardiovascular ultrasound will find these activities beneficial.

ASEUniversity Guideline-based Live Webinars

Available: ONLINE ONLY on ASEUniversity.org

Live, guideline-based webinars are also available to ASE members and nonmembers. These interactive events allow you to learn from the experts in the privacy of your home or office, while interacting and engaging with your fellow attendees. Webinars also provide the opportunity to ask the presenter questions to be answered during the live broadcast. Each webinar is approximately one hour in length. The majority of live webinars offer CME credits.

ASE Annual Scientific Sessions

Online Library

Available: ONLINE ONLY on ASEUniversity.org

Non-CME educational product.

ASE’s digital library combines slides, video, and speaker audio to give you the feel of a live meeting anywhere you go.

This expanding database contains several core curriculums taught by leading experts in the field of echocardiography. Originally presented at national, scientific conferences, ASE’s digital library provides you with year-round access to the audio and video materials. With mobile access, learning from the experts while sharing with colleagues and friends is now only a download away.

View all approved ASE Annual Scientific Sessions anywhere your computer or iOS device takes you! The ASE Annual Scientific Sessions Online Library includes: live audio recordings, PowerPoint presentations, and embedded video clips. Unlimited online access is available to all ASE Annual Scientific Sessions from 2009 through the latest conference. Purchase a single or multi-year subscription, full conference, or single sessions.

Full Conference:

ASE Member: $299  Nonmember: $399

Individual session prices vary by subject matter.

ASE’s Comprehensive Echocardiography

Available: Textbook on ASEMarketPlace.com or Amazon.com
e-Book on ASEMarketPlace.com

Non-CME educational product.

Written by world experts from the American Society of Echocardiography, Comprehensive Echocardiography is a unique multimedia resource with text, case studies, and online components covering the latest uses of echocardiography, including the most recent 2D and 3D advances. This 2nd edition, with its new title, has over 200 chapters that include essential material in a succinct format. It has everything you need to assess cardiac anatomy and function and obtain clinically useful, noninvasive information for more accurate diagnosis and evaluation of heart disease.

Included with the book is an online version and an outstanding online library of slides and videos of case presentations that correspond to crisp, full-color images, allowing you to view dynamic echocardiographic clips of various cardiac pathologies.

ASE Member: $199  Nonmember: $229
ASEUniversity III: Case-based Learning

Chair: Sunil V. Mankad, MD, FASE

Available: ONLINE ONLY on ASEUniversity.org

Each volume is designated by ASE for 5 AMA PRA Category 1 Credits™.

Each volume is accepted by the ABIM for 10 MOC points towards Medical Knowledge Self-assessment requirements.

This product includes two volumes which are entirely case-based, online cardiovascular ultrasound learning activities.

Volume 1
- Artifacts
- Cardiac masses
- Cardiomyopathies
- Congenital heart disease
- Coronary artery disease
- Diastolic function
- Doppler
- New technology
- Pericardial disease
- Stress echocardiography
- Valvular heart disease
- Ventricular size and function

Volume 2
- Aortic regurgitation
- Cardiomyopathies
- Closure devices/ device placement
- Congenital heart disease
- CRT
- Doppler
- Endocarditis
- Image optimization
- Mitral stenosis
- Stress echocardiography

Price per volume:

Best of ASE Series

Available: DVD on ASEMarketPlace.com or Amazon.com

ONLINE on ASEUniversity.org

Non-CME educational product.

Enhance your understanding of echocardiography with this compilation of lectures from ASE courses. Broken down into multiple volumes, the current series includes:

Volume 1: Introduction to Diastology 2nd Edition
Volume 2: Basics of Strain Imaging 2nd Edition
Volume 3: A Practical Guide to 3D Echocardiography 2nd Edition
Volume 4: Basic Physics of Ultrasound, Knobology, and Echocardiographic Artifacts
Volume 5: Contrast Echocardiography
Volume 6: Echocardiographic Imaging of Native and Prosthetic Valves
Volume 7: Stress Echocardiography
Volume 8: Transesophageal Echocardiography
Volume 9: Perioperative Echocardiography

Case-based Learning: Focus on Patient Safety

Chair: James D. Thomas, MD, FASE

Available: ONLINE ONLY on ASEUniversity.org

Designated by ASE for 2.5 AMA PRA Category 1 Credits™.

Accepted by the ABIM for 9 MOC points towards Medical Knowledge Self-assessment requirements.

Focus on Patient Safety is an entirely online, case-based program covering both clinical and safety issues.

Topics include, but are not limited to:
- Antibiotic prophylaxis
- Stress echocardiography
- Bioeffects of ultrasound
- TAVR
- Contrast
- TEE

Clinical Cases in Echocardiography: Focus on Congenital Heart Disease

Chair: Richard A. Humes, MD, FASE

Available: ONLINE ONLY on ASEUniversity.org

Designated by ASE for 5 AMA PRA Category 1 Credits™.

Accepted by the ABIM for 11 MOC points towards the Medical Knowledge Self-assessment requirements.

Accepted by the ABP for 10 MOC points towards the Lifelong Learning Self-assessment requirements.

This activity provides online cases reviewing the role of echocardiography in diagnosis and follow-up of a wide variety of different congenital heart diseases and defects.

Topics include, but are not limited to:
- Atria and Ventricular Septal Defects
- Coarctation of the Aorta
- Ebstein’s Anomaly
- Patent Foramen Ovale
- Patent Ductus
- Arterious Valve Defects
- Pulmonary Artery Stenosis
- Tetralogy of Fallot
- Transposition of the Great Arteries

Cases include symptomatic and asymptomatic diagnosis and treatment, as well as adult patients with repaired or palliated CHD.

Contrast-Enhanced Echocardiography Lecture Series

Chair: Jonathan Lindner, MD, FASE
Available: ONLINE on ASEUniversity.org

Designated by ASE for 6 AMA PRA Category 1 Credits™. Accepted by ABIM for 6 MOC points towards Medical Knowledge Self-assessment requirements.

This series contains lectures by ASE subject matter experts. Each lecture includes both didactic and case-based teaching methods. The lectures are ordered to build upon the concepts from the previous lectures. Participants are provided with questions testing knowledge between lectures. This activity is designed for all cardiovascular physicians, cardiac sonographers, and nurses with a primary interest and knowledge base in the field of echocardiography and a specific interest in contrast echocardiography.

The following topic areas are included in this series:
- Contrast Basics
- Policy and Procedures of Contrast
- Ventricular Cavity Opacification
- Myocardial Contrast Perfusion
- Improving Diagnostic Value
- Knobology

This series is made possible through an unrestricted educational grant from GE Healthcare.

Essentials for Proficiency in Basic Cardiovascular Ultrasound

Chair: Susan E. Wiegers, MD, FASE
Available: DVD with Workbook on ASEMarketPlace.com or Amazon.com ONLINE with Downloadable Workbook on ASEUniversity.org

Non-CME educational product.

Designed by top physicians and professors of cardiovascular medicine, this comprehensive review of basic echocardiography has been created as a teaching tool for echocardiography fellows and others interested in learning about the use of cardiovascular ultrasound in clinical practice. This set includes 15 lectures on a variety of topics, beginning with the normal TTE and TEE examinations, and then covering the mitral and aortic valves in-depth, left and right heart function, physics, prosthetic valves, and more. Each lecture has been carefully crafted to include a thorough review of practical concepts, references to ASE’s Guidelines and Standards, video examples of normal and abnormal echocardiograms, and case studies designed to provide real-word examples. A workbook correlates with the lectures to provide a guide for each presentation.

Lectures include:
- The Normal Transthoracic Echocardiogram
- Transesophageal Echocardiography
- Introduction to Physics of Echocardiography
- Echo Assessment of the Left Ventricle
- Mitral Valve 1: Normal Anatomy & Regurgitation
- Mitral Valve 2: Mitral Stenosis
- Aortic Valve 1: Normal Valve and Aortic Stenosis
- Aortic Valve 2: Regurgitation, Endocarditis
- Cardiomyopathies
- Echocardiography of Endocarditis
- The Right Heart
- Pericardial Disease
- Cardiac Masses and Tumors
- Coronary Artery Disease and Stress Echo
- Echocardiographic Assessment of Prosthetic Valves

ASE Member: $150  Nonmember: $250
Focused Cardiac Ultrasound: Fundamental Principles of Acquisition & Interpretation

Chair: Kirk T. Spencer, MD, FASE

Available: DVD ONLY on ASEMarketPlace.com or Amazon.com

Non-CME educational product.

This state-of-the-art DVD is an instructional video to be used for self-guided learning and professional lectures. The DVD features several interactive sections for flexible presentation, including an easy to navigate DVD menu, overview of relevant cardiac anatomy, presentation of transducer positions, imaging examples of a wide variety of pathologies, case presentations with discussions, and an interpretation practice section designed to gauge levels of familiarity with the materials presented.

Topics include:

Section 1: Heart Anatomy
- Heart and Ribs
- Axis of the Heart
- Planes of the Heart
- Chambers
- Valves and Annuli
- Blood Flow

Section 2: Focused Cardiac Ultrasound Assessment
- Left Parasternal Long Axis (PLAX)
- Left Parasternal Short Axis (PSAX)
- Apical
- Subcostal
- Lung

Section 3: Pathologies, featuring 20 different examples, including:
- Pericardial Effusion
- RV & LV Systolic Dysfunction
- Severely Calcified AV
- Pleural Effusion
- LV Hypertrophy
- Pulmonary Edema
- Dilated Aortic Root
- IVC Collapse

Section 4: Case Studies
Section 5: Practice Interpretations

Sections 4 and 5 are TWO BONUS MATERIAL SECTIONS to provide you with opportunities to test your knowledge through a variety of clinical patient scenarios!

ASE Member: $150 Nonmember: $250

Pediatric and Congenital Heart Disease Lecture Series

Chair: Timothy C. Slesnick, MD, FASE

Available: ONLINE ONLY on ASEUniversity.org

Designated by ASE for 15.75 AMA PRA Category 1 Credits™. Accepted by the ABP for 20 MOC points towards the Lifelong Learning Self-Assessment requirements.

A comprehensive lecture series for core types of congenital heart disease. Comprised of 12 lesions, you will gain an in-depth understanding on the use of echocardiography/pathology correlations and echocardiography/surgery correlations.

Lesion 1: Pulmonary Venous Anomalies
Lesion 2: Atrial Septal Defects
Lesion 3: Tricuspid Valve Pathology
Lesion 4: Common Atrioventricular Canal
Lesion 5: Tetralogy of Fallot
Lesion 6: Double Outlet Right Ventricle
Lesion 7: Congenitally Corrected Transposition of the Great Arteries
Lesion 8: Hypoplastic Left Heart Syndrome
Lesion 9: Pulmonary Atresia with Intact Ventricular Septum
Lesion 10: Aortic Coarctation and Interrupted Aortic Arch
Lesion 11: Truncus Arteriosus
Lesion 12: D-Transposition of the Great Arteries

How to Perform a TTE Study: Transducer Position and Anatomy

Chair: Roberto M. Lang, MD, FASE

Available: DVD ONLY on ASEMarketPlace.com or Amazon.com

Non-CME educational product.

This instructional video can be used for professional lectures and offers an interactive section for flexible presentations. The video includes an overview of relevant cardiac anatomy, a step-by-step presentation of all transducer positions, and the sequential transducer movements to acquire standard echo images needed to complete a transthoracic echocardiographic study.

This product content consists of two sections as follows:

Section 1:
Heart Anatomy
- 1.1 Heart and Ribs Echocardiography
- 1.2 Axis of the Heart
- 1.3 Planes of the Heart (PLAX)
- 1.4 Chambers
- 1.5 Valves and Annuli (PSAX)
- 1.6 Blood Flow

Section 2:
Basic Transthoracic
- 2.1 Left Parasternal Long
- 2.2 Left Parasternal Short
- 2.3 Apical
- 2.4 Subcostal
- 2.5 Suprasternal

Proper Echocardiographic Measurements: How and Why

Chair: Andrew Pellett, PhD, RCS, RDCS, FASE

Available: DVD on ASEMarketPlace.com or Amazon.com
ONLINE on ASEUniversity.org

Designated by ASE for 5 AMA PRA Category 1 Credits™.

Proper Echocardiographic Measurements: How and Why is a guideline-based product focused on the methods used to obtain measurements, to include data and explanations to show why they are appropriate. This educational tool comprises a combination of didactic lectures and clinical questions, and can be used as a review for current sonographers, as well as a training tool for new or early career sonographers and others who are interested in the practice of cardiovascular ultrasound.

Topics include:

- 2D vs. M-mode
- IVC Diameter Right Heart Measurements
- Mitral Valve: Stenosis and Regurgitation
- LV Linear Measurements: 2D and M-mode
- Velocity Measurements: Using Spectral Doppler Ultrasound Correctly
- Tricuspid Valve: Normal, Stenosis, Regurgitation
- Diastology: E, A, DT

Self-Study Program III

Available: DVD ONLY on ASEMarketPlace.com or Amazon.com

Designated by ASE for 15.5 AMA PRA Category 1 Credits™.

Accepted by ABIM for 15.5 MOC points towards Medical Knowledge Self-assessment requirements.

This self-study program contains 15 presentations that you can move through at your own pace. It is designed for adult and pediatric cardiologists, cardiovascular surgeons, cardiovascular anesthesiologists, fellows in training, cardiovascular sonographers, cardiovascular nurse specialists, internists, intensivists, and emergency physicians with special interest in clinical cardiology and echocardiography.

Topics include:

- Duplex Imaging in Carotid Disease Management
- Symptom-Based Echocardiography
- Recommendations for the Use of Echocardiography in New Transcatheter Interventions for Valvular Heart Disease
- Practical Review of Guidelines: Aortic Stenosis and Aortic Regurgitation
- Speckle Tracking for the Sonographer
- Contrast Echocardiography
- 3D Echocardiography – Current & Future Applications
- Cardiac Sources of Emboli
- Performing a Comprehensive Transesophageal Echocardiography Examination
- Clinical Recommendations for Multimodality Cardiovascular Imaging of Patients with Pericardial Disease
- Assessment of Native and Prosthetic Valvular Heart Disease: A Case-Based Review of the ASE Guidelines
- Echocardiography in Mechanical Support Devices
- Multimodality Imaging Guidelines for Patients with Repaired Tetralogy of Fallot
- The Adult with Undiagnosed Congenital Heart Disease: Echocardiographic Evaluation
- Ischemic Stroke and TIA Nonvalvular Atrial Fibrillation Assessment by Cardiovascular Imaging

Transesophageal Echocardiography in Perioperative Care

Chair: Madhav Swaminathan, MD, FASE

Available: DVD on ASEMarketPlace.com or Amazon.com
ONLINE on ASEUniversity.org

Designated by ASE for 5 AMA PRA Category 1 Credits™.

This is a case-based educational tool for anesthesiologists, cardiologists, fellows, surgeons, and other interested individuals currently performing and/or interpreting TEE for intraoperative procedures. Case progression is provided to showcase images before, during, and after the procedure.

Topics include, but are not limited to:
- LV Function
- RV Function
- Diseases of the Aorta
- Aortic Valve and Root
- LVOT (Including HCM)
- Mitral Valve Stenosis
- Mitral Valve Regurgitation
- Tricuspid Valve
- Atrial Septum
- Other Intraoperative Uses Outside of Monitoring and Emergency Diagnosis

Transesophageal Echocardiography in Structural Heart Disease

Chair: G. Burkhard Mackensen, MD, PhD, FASE

Available: DVD on ASEMarketPlace.com or Amazon.com
ONLINE on ASEUniversity.org

Pending approval of AMA PRA Category 1 Credits™.

This case-based product highlights the specifics of procedural imaging in the structural heart disease area, namely exact procedure-specific guidance, procedural communication using an unambiguous procedure-specific language, familiarity with all relevant echocardiographic modalities and when to use them most effectively. The product highlights experts in this field showcasing some of their best successes and failures - along with a discussion of best practices and solutions.

Topics include, but are not limited to:
- TAVR
- Transcatheter tricuspid valve interventions
- Mitral repair
- LAA closure
- Paravalvular leak closure
- VSD closure
- Valve-in-Valve
- ASD and PFO closure
- Adult congenital interventions

ASE and Ke Labs have collaborated to co-develop the Echo Test and Teach Application. Designed through the expert guidance of Harvey Feigenbaum, MD, FASE, and founder of ASE, this tool was produced to ensure quality and consistency of cardiac ultrasound image review as well as to educate users on interesting cases and new techniques.

Benefits and Features
- Enhances patient care by reducing variability
- Facilitates and enforces echo lab quality standards
- Supports fulfillment of lab accreditation requirements
- Offers a hands-on, real-world training experience without being tied to an imaging devices
- Cloud-based, so users have access anytime and anywhere
- Contains case studies covering multiple areas and new cases are continually added
- Includes analytic tools to enable administrators to analyze both individual and collective results

Designated by ASE for up to 10 AMA PRA Category 1 Credits™ per year.

Exam Review Products

**ASCeXAM/ReASCE Review Course**
**Online Library**

Available: ONLINE ONLY on ASEUniversity.org

*Non-CME educational product.*

These lectures were presented at ASE’s ASCeXAM /ReASCE Review Course by expert faculty and cover all aspects of cardiovascular ultrasound essential to the board examinations. The online lecture format features synchronized slides; including embedded videos and the accompanying audio. You will feel like you are sitting in the class. This product is perfect for individuals looking to access the content anytime, anywhere.

This 28-hour, online course set will help you prepare for the NBE exams.

**ASE Member:** $375  **Nonmember:** $525

**ASCeXAM/ReASCE Online Practice Exam Simulation**

Available: ONLINE ONLY on ASEUniversity.org

*Non-CME educational product.*

Designed to prepare physicians for the National Board of Echocardiography's ASCeXAM or ReASCE certification examinations, this test bank consists of 300 multiple choice questions containing over 400 images and videos covering:

- The Physical Principles of Cardiovascular Ultrasound
- Valvular Heart Disease
- Ventricular Size and Function
- Coronary Artery Disease and Cardiomyopathies
- Congenital Heart Disease and Fetal Echocardiography as well as Cardiac Masses
- Pericardial Disease
- Myocardial Contrast
- M-mode
- Two-Dimensional
- Doppler Echocardiography
- Latest Applications in Echocardiography

In addition to objective-based questions, case studies are included to evaluate your knowledge of the field. This product allows you to take two simulated exams of 150 questions and be graded up to six times. You have 18 weeks of access to the simulation exam.

**ASE Member:** $199  **Nonmember:** $250

---

**Cardiovascular Sonographer Registry Review Guide**

**Chair: Michelle Bierig, MPH, RDCS, FASE**

Available: DVD with Workbook on ASEMarketPlace.com or Amazon.com ONLINE with Downloadable Workbook on ASEUniversity.org

*Non-CME educational product.*

ASE has specifically designed the Sonographer Registry Review as a study guide for both the ARDMS and CCI registry examinations. A series of lectures will cover content related to adult echocardiography and physics. The lectures will include illustrative cases and practice exam questions for each subject area assigned. Each lecture will provide the essentials of topics expected to be covered on the registry examinations. In addition, a 500-page workbook of the presentations and other helpful material is included either electronically or in hard copy form.

**Lectures cover the following topics:**

- Intro to Echo
- Physics
- The Left Side
- Cardiomyopathies and Pericardial Disease
- Mitral Valve Disease
- Prosthetic Valve Disease
- Aortic Valve Disease
- Aortic Disease
- Right Side
- Congenital Heart Disease
- Cardiac Tumors

**ASE Member:** $150  **Nonmember:** $250
ASE Guideline Reference Book

Available: Binder with inserts on ASEMarketPlace.com or Amazon.com

e-Book on ASEUniversity.org

*Non-CME educational product.*

The three-ring binder is designed to accommodate new inserts as they are published. Each title can be included in the entire book or purchased as an individual inserts. Perfect for use in the reading room. This book is a best-seller!

The online e-Book comes in a convenient format for quick reference and is designed to immediately include new inserts as they are published.

**The Reference Book consists of the following graphic illustrations:**

- Echocardiographic Evaluation of LV Diastolic Function (JASE, April 2016)
- Evaluation of Prosthetic Valves with Echocardiography and Doppler Ultrasound (JASE, September 2009)
- Guidelines for Appropriate Use Criteria for Echocardiography (JASE, March 2011)
- Guidelines for Performing a Comprehensive Transesophageal Echocardiographic Exam (JASE, September 2013)
- Guidelines for Performing Multiplane Transesophageal Echocardiography (JASE, 1999)
- Guidelines for Stress Echocardiography (JASE, September 2007)
- Multimodality Cardiovascular Imaging of Patients with Hypertrophic Cardiomyopathy (JASE, May 2011)

**Online e-Book**

- ASE Member: $75 annually
- Nonmember: $100 annually

**Binder with Inserts**

- ASE Member: $225
- Nonmember: $325

**Individual Inserts**

- ASE Member: $40
- Nonmember: $75

---

Individual ASE Pocket Guidelines

Available: ASEMarketPlace.com or Amazon.com

These pocket-sized flipbooks, of charts from ASE guidelines and standards for cardiovascular ultrasound, were designed to be carried in lab coats and scrub pockets and used as quick reference guides for measurements.

- Evaluation of Prosthetic Valves with Echocardiography and Doppler Ultrasound (JASE, September 2009)
- Echocardiographic Evaluation of Left Ventricular Diastolic Function by Echocardiography (JASE, April 2016)
- Echocardiographic Assessment of Valvular Regurgitation and Stenosis (JASE, September 2009)
- Recommendations for Image Acquisition and Display Using Three-Dimensional Echocardiography (JASE, January 2012)
- Guidelines for Chamber Quantification of the Left Heart (JASE, January 2015)
- Guidelines for Chamber Quantification of the Right Heart (JASE, January 2015)

**ASE Pocket Guideline Bundle**

Available: ASEMarketplace.com or Amazon.com

This bundle includes the six ASE Pocket Guidelines listed above.

- ASE Member: $50
- Nonmember: $75

**Bulk Rate:** $42 each for 100 or more

---

ASE Guideline Products: Flipchart, Reference Book and Pocket Guides.
ASE Guideline Products

Guideline Posters
ASE’s poster series is a visual representation of the guidelines and standards set by ASE. The designs are pleasing to the eye and suited for display in patient areas and clinics. A great addition to your lab, these 24” x 30” posters will serve as a valuable resource for both physicians and technicians.

Individual Posters
- Consensus Statement on the Clinical Applications of Ultrasonic Contrast Agents in Echocardiography (JASE, November 2008)
- Echocardiographic Evaluation of LV Diastolic Function (JASE, April 2016)
- Guidelines for Chamber Quantification of the Left Heart (JASE, January 2015);
- Guidelines for Chamber Quantification of the Right Heart (JASE, January 2015);
- Guidelines for Noninvasive Vascular Laboratory Testing (JASE, August 2006)
- Guidelines for Pediatric Echocardiography (JASE, December 2006)
- Guidelines for Performing a Comprehensive Transesophageal Echocardiographic Exam (JASE, September 2013)*
- Guidelines for Performing Multiplane Transesophageal Echocardiography (JASE, October 1999)
- Guidelines for Stress Echocardiography (JASE, September 2007)
- Multimodality Cardiovascular Imaging of Patients with Hypertrophic Cardiomyopathy (JASE, May 2011)
- Recommendations for Evaluation of Prosthetic Valve with Echocardiography and Doppler Ultrasound (JASE, September 2009)
- Recommendations for Evaluation of the Severity of Native Valvular Regurgitation with Two-Dimensional and Doppler Echocardiography (JASE, December 2016)
- Recommendations for Image Acquisition and Display Using Three-Dimensional Echocardiography (JASE, January 2012)
- Recommendations for Multimodality Cardiovascular Imaging of Patients with Pericardial Disease (JASE, September 2013)
- Recommendations for Quantification Methods during the Performance of a Pediatric Echocardiogram (JASE, May 2010)

ASE Member: $20  Nonmember: $30

Guideline Poster Set
Set consisting of 14 full-size ASE Guideline Posters
ASE Member: $225  Nonmember: $325

Guideline Poster Flip Chart
Tabletop flip chart consisting of 13 ASE Guidelines Posters reduced to 11” x 14-3/4”, laminated and presented in a vinyl heat sealed binder. *not included in flip chart

ASE Member: $200  Nonmember: $265

Guideline Lab Bundle
With ASE’s Guideline Lab Bundle, you can stock your lab with excellent products at a substantial savings. Included in the bundle is one Guideline Reference Book, one Guideline Poster Flipchart and ten complete sets of Pocket Guides. Save over $100 off individual pricing.

ASE Member: $700  Nonmember: $1,000
JASE and Online Articles

Journal of the American Society of Echocardiography (JASE)

JASE brings physicians and sonographers the very latest clinical, scientific, legal, and economic information regarding the use of cardiac ultrasound. The Journal’s original, peer-reviewed articles cover conventional procedures as well as newer clinical techniques, such as transesophageal echocardiography, intraoperative echocardiography, and intravascular ultrasound. The Journal, an official publication of the American Society of Echocardiography, has an Impact Factor of 4.254. Your subscription also includes online access to JASE.

OnlineJASE.com

ASE Member: FREE
Nonmember: $352 per year (U.S.)/$468 per year (international)

CME for JASE Articles

AVAILABLE: ONLINE ONLY on ASEUniversity.org

New postings are made frequently. Visit the website for all the latest additions.

CME credits and MOC points will be listed online where appropriate. See specific article for more information.

Title

- Addressing the Controversy of Estimating Pulmonary Arterial Pressure by Echocardiography
- Comprehensive Two-Dimensional Interrogation of the Tricuspid Valve Using Knowledge Derived from Three-Dimensional Echocardiography
- Differential Diagnosis and Clinical Implications of Remnants of the Right Valve of the Sinus Venosus
- Early Bioprosthetic Valve Failure: Mechanistic Insights via Correlation between Echocardiographic and Operative Findings
- Fact or Artifact in Two-Dimensional Echocardiography: Avoiding Misdiagnoses and Missed Diagnosis
- Guidelines for the Echocardiographic Assessment of Atrial Septal Defect and Patent Foramen Ovale: From the American Society of Echocardiography and Society for Cardiac Angiography and Interventions
- Guidelines for the Use of Echocardiography as a Monitor for Therapeutic Intervention in Adults: A Report from the American Society of Echocardiography
- Guidelines for the Use of Echocardiography in the Evaluation of a Cardiac Source of Embolism: ASE Guideline
- Impact of Diastolic Function Parameters on the Risk for Left Atrial Appendage Thrombus in Patients with Non Valvular Atrial Fibrillation
- Percutaneous Closure of Perivalvular Mitral Regurgitation: How Should the Interventionalists and Echocardiographers Communicate?
- Recommendations for Cardiac Chamber Quantification by Echocardiography in Adults
- Recommendations for the Evaluation of Left Ventricular Diastolic Function by Echocardiography: 2016 Update

Echo AUC App

AVAILABLE: Apple’s iTunes store and Google Play store.
ASE Foundation received support from the Robert Wood Johnson Foundation and the Choosing Wisely campaign to develop the Echo Appropriate Use Criterial application. This app is utilized to help physicians make wise decisions about the most appropriate care for the patient.

ASE Member & Nonmember: FREE

iASE App

AVAILABLE: Apple’s iTunes store and Google Play store.
This application is a platform to deliver the top guidelines published by ASE.
Each guideline summary includes key tables, reference values, and figures that are quick and easy to look-up. They can also serve as a teaching tool in an educational setting.
Close to 30 echocardiography calculators are included to complement the guidelines. They feature useful information, figures, and references.
The rapid access library contains 54 guidelines from 1999-2015 totaling over 1000 pages that can reviewed, downloaded, and printed.

Echocardiography calculators:
- Aortic Root Index
- AV Velocity Ratio
- AVA (Continuity Eqn VTI)
- AVA (Continuity Eqn VMax)
- dP/dt (LV Contractility)
- dP/dt (RV Contractility)
- Left Atrial Pressure (MR)
- LA Volume (Biplane Method)
- LV EF (Mod Quinones Eqn)
- LV EF (Simp Quinones Eqn)
- LV Fractional Shortening
- LV Mass and LV Mass Index
- Mitral Valve Area (PHT)
- Mitral Valvuloplasty Score
- Modified Bernoulli Equation
- MPI (LV)
- MPI (RV)
- Prosthetic AV EOA
- Prosthetic AV DVIRV
- Prosthetic MV EOA
- Prosthetic MV DVI
- PISA (Mitral Regurgitation)
- PISA (Mitral Stenosis)
- Qp/Qs
- RVSP (TR)
- Sinus Valsalva Dimensions
- SV, CO

Included special reference value tables:
- Prosthetic Aortic Valves
- Estimation of Filling Pressures
- Prosthetic Mitral Valves
- Grading of Diastolic
- Evaluation of Elevated Peak Dysfunction
- Prosthetic Aortic Jet Velocity >3 m/s

Included guideline summaries are:
- Chamber Quantification (2015)
- Left Ventricular Diastolic Function (2009)
- Prosthetic Valves (2009)
- Valvular Stenosis (2009)

Connect@ASE – ASE’s Networking Platform

Participate in the global conversation on ASE’s networking platform, Connect@ASE (Connect.ASEcho.org). This members-only site is the host for our active discussion forums, our image library containing hundreds of moving images, and our enhanced member directory to connect with colleagues. Access Connect@ASE on your device by downloading the free app by searching for ‘MemberCentric’ and selecting ASE.

For more information, visit Connect.ASEcho.org

ASE Education Co-Sponsorship (without CME)

As an organization dedicated to excellence in cardiovascular ultrasound for patient care, ASE strives to promote and provide opportunities for enhancement of knowledge and skills of members and nonmembers through its educational programming. The purpose of ASE’s educational programs is to improve proficiency in the field of cardiovascular ultrasound, which is an important tool for optimal management of patients with heart disease.

A co-sponsorship agreement without CME is one whereby the submitting organization is an ACCME Accredited Provider responsible for the educational integrity of the program. ASE will endorse the educational activity, but assumes no CME responsibility; the submitting organization is responsible for providing CME and ensuring that the activity is conducted in accordance with all ACCME guidelines and policies. Multiple sponsorship levels are available, each with great marketing benefits to help drive course attendance. ASE accepts applications for co-sponsorship based upon topic, time frame, and target audience.

For full details, pricing, and to download a copy of the application, please visit ASEcho.org/ASE-sponsorship-opportunity.

Hospital CEU Programs

This program is designed for cardiac ultrasound and cardiovascular laboratories that hold monthly, in-house meetings related to echocardiography. Under the guidelines set forth by this program, sonographer attendees will be eligible for up to 12 ASE CEU credits per year from attendance at these meetings. ASE CEU credits are honored by ARDMS and CCI towards registry requirements for sonographers.

For labs up to 10 people: $250
For labs with 11 – 25 people: $300
For labs with 26 – 50 people: $400
For labs with over 50 people: $500

For more information, visit ASEcho.org/ceuprograms

Local Society CEU Program

ASE partners with local echocardiography societies to provide CEU to cardiovascular sonographers attending their meeting. Local echocardiography societies will be approved to offer up to 12 ASE CEU credits to attendees per year. ASE CEU credits are honored by ARDMS and CCI towards registry requirements for sonographers.

Application Fee: $300

For more information, visit ASEcho.org/ceuprograms

How to Order Products

ASE Members

1. Login to your member portal by selecting the “Login” button at the top of ASEcho.org.
2. Select “ASE MarketPlace” on the left side.
3. Select the category for your product and locate it in the displayed list.
4. Select “Learn More” to see a detailed product description and to add the product to your cart.

Nonmembers

1. Navigate a web browser to Amazon.com/shops/ASE.
2. Locate the search bar near the top of the screen, and enter the product name.
3. Click the “Go” button to the right of the search bar to display the list of products.

Membership in ASE

As the largest global organization for cardiovascular ultrasound imaging, The American Society of Echocardiography (ASE) is the leader and advocate, setting practice standards and guidelines. Comprised of nearly 17,000 physicians, sonographers, nurses, and scientists, ASE is a strong voice providing guidance, expertise, and education to its members with a commitment to improving the practice of ultrasound and imaging of the heart and cardiovascular system for better patient outcomes.

Anyone with an interest in cardiovascular ultrasound is welcome to become a member of ASE! Thousands of leaders in the field of echocardiography already receive ASE’s many benefits.

**ASE Membership Benefits**

**Valuable Education, Products, and Career Resources**

**ASE Guidelines** – With over 60 published recommendations, these documents not only provide the foundation for the daily clinical practice of echocardiography worldwide, they are the core of ASE. Many guidelines have been translated into languages other than English.

**Free ASE Guideline webinars to ASE Members** – Presentations by the lead authors with dedicated question and answer time to understand how to implement in your practice for better patient care.

**Journal of the American Society of Echocardiography (JASE)** – A monthly subscription to learn and stay current in the field of echocardiography through original, peer-reviewed articles.

**CASE** – ASE’s online, open-access, cardiovascular imaging case reports journal. ASE members enjoy significantly discounted publication fees for this journal.

**The Echo** – A weekly eNewsletter to help keep you informed about changes in your industry, ASE news, educational opportunities and upcoming events.

**Discounted Live Educational Courses** – Learn from the experts and network with colleagues.

**Online Continuing Education at ASEUniversity** – Currently over 30 free CME credits are included with ASE memberships.

**CME/MOC/CEU Reporting** – ASE regularly reports of ASE educational credits earned to the American Board of Internal Medicine (ABIM), American Board of Pediatrics (ABP), American Registry for Diagnostic Medical Sonography (ARDMS), and Cardiovascular Credentialing International (CCI).

**Product Discounts** – Receive an average of 30% off most ASE educational products including textbooks and DVD’s.

**Peer-to-Peer Networking** – Connect@ASE allows members to network with like-minded echo enthusiasts through private online forum, interactive member directory, blogs, communities, and more.

**Digital Image Library** – Members can share echo images for educational purposes.

**Fellow of the American Society of Echocardiography (FASE)** – The FASE credential recognizes the dedicated ASE member with an extraordinary commitment to the field of cardiovascular ultrasound. This designation is a peer-review process.

**Special Interest Councils** – Councils are open to all ASE members regardless of their area of practice. Councils include: Cardiovascular Sonography, Pediatric and Congenital Heart Disease, Perioperative Echocardiography, and Vascular Ultrasound.

**ASE Advocacy Efforts** – ASE represents our members, while advocating to create an environment for excellence in the quality and practice of cardiovascular ultrasound. ASE’s role as the voice of echocardiography on Capitol Hill, to federal agencies, and among private payers is unquestionably of great—and ever-increasing—importance.

**Reimbursement and Coding Assistance** – ASE’s provides an annual coding newsletter and reimbursement updates. Members also have access to ASE’s coding expert for specific questions about reimbursement.

**ASE Endorsed Professional Liability Insurance** – available for sonographers.

**Research and Travel Grants** – Council and ASE Foundation grants for physicians, sonographers, and student members only.

**Service on ASE Committees and Boards** – ASE’s leadership encourages interested members to apply for open positions to increase your involvement in your society. Influence the creation of guidelines and standards, educational courses, products and much more.

**ASE’s Mission**

ASE is committed to excellence in cardiovascular ultrasound and its application to patient care through education, advocacy, research, innovation, and service to our members and the public. Our members are heart and circulation ultrasound specialists dedicated to improving their patients’ health and quality of life. They use ultrasound to provide an exceptional view of the cardiovascular system to enhance patient care.
Join ASE today at ASEcho.org/Join

ASE strives to maintain low membership fees while offering an extremely wide range of benefits to the cardiovascular imaging professional. International dues are available to anyone who resides outside the United States.
